BABY TREES---Two to three feet tall have been a specialty with us for fifteen years.

This year we have some nice trees and we are offering them at the same price we had on them in 1940. But the supply is limited, so **ORDER EARLY**. We will ship them when you want them, or at proper planting time for your locality.

We have shipped these trees into every state in the country and have many fine testimonials for them. We pack them to reach you in fine condition.

 **Items crossed off are sold out.**

Our large six-year-old Bearing Age Fruit Trees are grown by a specialist, here in Ohio, and this makes our third year to offer these fine trees. If you want some nice large fruit trees that will bear soon, these will please you.

Plant them Early. Order Early. Supply is Limited.

**ENCLOSED IS LIST OF
BABY TREES (2 to 3 ft.) AT PRE-WAR PRICES

BABY TREES SEE INSIDE PAGES

Listed Below We Offer Some Very Fine Varieties Of

YOUNG SHRUBS and PLANTS potted

This year we offer some of the finest varieties of Shrubs etc., in young potted plants (one year old.) These fine little plants are well rooted and well established in pots and we ship them with each root ball wrapped in paper and carefully packed to reach you in fine condition. They are easy to grow into fine specimen plants that would cost you several times what these fine little fellows cost.

The best plan is to plant them in a row in your garden for two years and then transplant them to permanent positions. Plant them one foot apart in the rows and the rows should be 30 inches apart.

Any Six (your choice) for \$1.00 prepaid

Potted Chrysanthemums also can be ordered. See List.

12 plants (not less than 3 of a variety) \$2.00	25 plants (not less than 3 of a variety) \$3.85
50 plants (not less than 3 of a variety) \$7.00	100 plants (not less than 3 of a variety) \$12.85

ALL SHIPPED PREPAID

These plants are well started and should be planted in May and June after all danger of frost is past.

SHRUB VARIETIES

ABELIA—Dwarf shrub with glossy evergreen leaves. Dainty pink bloom all summer. Hardy in Ohio and is a very fine evergreen shrub.

BEAUTY BUSH—New shrub, hardy, grows to six feet. Graceful branches, fine attractive foliage a beautiful pink bloom in June. Very fine.

EUONYMUS VEGETUS—A hardy evergreen shrub or vine. Will cling to brick or stone. Slow growing. Glossy green leaves and is a very desirable plant. Can be used as a shrub also.

EUONYMUS ALATUS—Winged bark. Very slow growing and a beautiful formed shrub with very pretty foliage and brilliant autumn colors. Very hardy and fine.

FLOWERING ALMOND—Pink bloom in early May. Dwarf shrub, very hardy and desirable.

FORSYTHIA SPECTABILIS—A new variety of Golden Bell. Blooms in April with loads of golden flowers. Grows to seven feet, hardy and very showy. You will like this new variety.

KERRIA—Double yellow rose like blooms in July. A fine hardy shrub with unusual showy bloom and attractive foliage.

HYBRID FRENCH LILACS

These fine plants are propagated from blooming shrubs and are on own roots. French lilacs are very hardy, very popular and dependable. You can grow your own from these plants at a fraction of the cost of larger 3 year old shrubs. Grow enough for a hedge and you will be delighted.

Single varieties

SHAX X—Long panicles of violet red.

HUGO KOSTER—Immense clusters of violet blue.

LUDWIG SPAETHE—Deep reddish purple. Fine.

MME. LE GRAYE—Immense panicles of pure white.

Double Varieties

ALPHONSE LAVALEE—Beautiful shade of blue.

CHAS JOLY—Deep red.

DE SUSSURES—Dark purple.

MME. LEMOINE—Pure white.

PRES. GREVY—Clear blue.

PRES. POINCAIRE—Immense panicle of blue and white.

PHILADELPHUS VIRGINAL—Large pure white double bloom for about five weeks commencing in June. Hardy and grow six feet. A very fine shrub.

PHILADELPHUS GOLDEN LEAF—Dwarf compact grower. Fine bright golden green. Thrives in shade. Very beautiful for color contrast. Hardy and desirable.

SPIREA ANTHONY MATERER—Dwarf compact shrub blooming with bright red panicles in July. Grows to 2 feet and makes a fine hardy dwarf shrub.

VIRBURNUM TOMENTOSUM—A beautiful foliage shrub with brilliant autumn colors. Compact and pretty. Large panicles of pure white flowers in May. A fine shrub, hardy and grows to 6 feet.

CHRYSANTHEMUM will bloom this year

Fine potted plants that can be planted as late as July 1st and will give a fine lot of bloom this autumn. We offer some fine hardy varieties and these are the same price as the potted shrubs. You may order these in assortment with the shrubs or you can order just Chrysanthemum.

AZALEA TYPE OR CUSHION MUMS

Hundreds of blooms on each plant. After established they bloom from August until frost.

White Cushion — **Red Cushion** — **Pink Cushion** — **Bronze Cushion** — **Yellow Cushion**, all beautiful shades and early bloomers.

DOUBLE TALLER GROWING VARIETIES

Algonquin—Deep yellow and fine cut flowers.

Lavender Lady—New and beautiful tall lavender large flowers of fine form and very good.

Tasivia—Large pure white flowers. Very fine.

Rose Glow—A beautiful shade of deep rose pink. This is a great favorite.

LARGE SINGLE KOREAN VARIETIES

Hardest of all. Shaped like daisies. Fine colors. Showy in garden and very fine for cutting. Easy to grow.

Apollo—Bronze red and gold.

Ceres—Old gold. Chamois yellow.

Daphne—Beautiful bright pink.

Hebe—Large silvery pink.

Indian Summer—Double orange.

Louis Schling—Deep dazzling red.

Mars—Dark amaranth red.

Vulcan—Glowing carmine red.

Baby Trees at Bargain Prices

Flowering Trees

Nut Trees

Shade Trees

This is a real bargain. For fourteen years we have offered these fine little trees and our sales and testimonials prove the popularity and value of them. At this low price you can purchase a number of trees and grow them into fine specimen plants or mass them in your woodland, make a windbreak or plant them for timber. The little trees we offer are three-year-old seedlings and are two to three feet tall. They are large enough to transplant easily and will adapt themselves quickly to their new places.

PLANTING INSTRUCTIONS WILL BE SENT WITH EACH ORDER.

COMPLETE LIST OF BABY TREES

Offered by THE HARMON NURSERY, PROSPECT, OHIO

Your choice of the following in nice, well rooted, two to three feet high.

6 for \$1.00, 15 for \$2.00, not less than 3 of one kind 45 trees \$5.00, not less than 5 of one kind.
By Express or freight not prepaid, 100 trees \$8.00, not less than 5 of one kind.

If you can use 500 or more, send in the list of varieties you can use for special prices. Last year our largest single order called for Thirty-two thousand trees

Ash Green. Fine tree for dry locations. Excellent street tree with beautiful clean foliage. Very hardy, makes a beautiful specimen and valuable for timber.

Dogwood, White. Small tree. Covered with large, white flowers in May. Pretty foliage through summer and beautiful autumn colors. Very desirable either singly or in groups for lawn, border and woodland planting.

Redbud. Large shrub or small tree. Pretty foliage and a mass of rich pink flowers in May when Dogwoods are in bloom. Beautiful and effective either alone or in groups.

Birch, European White. Very hardy variety with pretty foliage and picturesque white bark. A beautiful specimen tree for lawn and woodland planting.

Caragana (Siberian Pea Tree) Very hardy large shrub or small tree. Light green foliage and yellow flowers in May. Thrives in very difficult locations and fine for bank sides and windbreaks.

Catalpa. Rapid growing with large leaves. Large clusters of white flowers in July followed by long Indian cigars in autumn. Grows in very poor soil and makes a fine interesting tree. Stands heat and drought.

Chinese Elm. New introduction from North China. Grows in all locations, good soil or poor. The best rapid growing shade tree known today. Fine street tree and withstands heat and drought. Perfectly hardy and easy to transplant.

These young trees can be planted into a hedge as they grow very bushy and with a little shearing will make a very fine hardy compact hedge. As a windbreak for stock lot or bee lot they are unexcelled. Plant a double row about six feet apart and let them grow bushy they will soon develop into a fine windbreak which will be perfectly hardy even in the cold northwest.

Eu. Mountain Ash. Makes a beautiful small specimen tree. The fern-like foliage is dark green and very pretty. The clusters of orange berries in the late summer and fall make it very showy and outstanding. You will find this tree well worth having.

Flowering Crab-Hopa. This fine tree comes from the northwest and is very hardy. Grows with a compact top. Pretty foliage and beautiful red flowers in late May. In autumn the small glistening red apples are very showy and attractive. A very pretty lawn and specimen tree, and one of our nicest flowering trees.

Lombardy Poplar. Tall, spirelike trees. Rapid growing and fine for background and screen effects. No other tree grows tall and slender like this variety.

Maple, Silver. Rapid growing fine shade tree. Thrives in all locations. Good street tree and very popular.

Ginnali Maple. The small, delicately shaped leaves are red and pink as they come out in the spring and eventually turn to a light green. The new leaves that come out thru the summer have the pink and red tints, and along with the green, it makes an attractive little tree. They are very hardy and easy to transplant. They grow more like a well branched shrub, with a nice full top, but they can be trimmed into a tree form by cutting off the lower branches. They are clean, and make a nice well behaved specimen, either as a low trimmed bush or can be developed into a fine looking tree. They will grow to 20 feet, but can be kept much lower by trimming thru the summer. This induces new growth and nicer colors also. The autumn colors after frost are vivid red and deep orange. Very striking.

Maple, Sugar. One of the finest shade trees. Compact, round top, with beautiful foliage. Tall and stately. These trees produce the sweet sap from which is made maple syrup and sugar.

Mulberry, Russian. Thrives in any location. One of the best trees for wild birds. Its thick top furnishes ideal nesting places and the fruit, which ripens all thru the summer, is loved by all song birds. Very hardy and makes a fine windbreak. Easy to transplant.

Osage Orange. We have added this variety on account of the large hedge apples or seed balls which they bear in great abundance. We have been shown conclusive proof that these seeds are relished by fox squirrels, rabbits, blue jays, cardinals and other winter birds. This information was furnished by the president of prominent Fish and Game Club of Ohio. These trees are easily transplanted. Perfectly hardy and can stand extreme temperature changes and drought. A good conservation tree for soil erosion, windbreak and for screen planting in difficult places. We do not recommend this tree for lawn or street planting but for game food and bird shelter, it is a fine plant.

Russian Olive. Small tree with very attractive grey foliage. Twigs also are grey. Handsome and fine for color effect. Golden, fragrant flowers in June. Hardy and easy to make live.

Sycamore. Large trees with light green or creamy white bark. Rapid growing, hardy and very rugged. Large leaves. A valuable timber tree and fine for color effect in winter.

Tamarix, Africana. A large shrub or small tree. Feathery foliage giving evergreen effect. Pink flowers in May. Deep rooted and thrives in difficult locations. Fine for foliage effect in borders and background. Stands heat and drought well.

The Harmon Nursery

Prospect, Ohio

BABY TREES Continued from page five

Tulip Tree. A fine tall growing stately tree. It forms a nice top and the foliage is excellent. Grows rapidly and makes a beautiful shade and lawn tree. Hardy in the latitude of Ohio but not farther north. It likes a rich soil. Flowers with fragrant yellow tulip-like bloom in late May. This tree makes a fine timber tree also.

Thornless Locust. This pretty tree has the same fine foliage and flowers of the regular locust but it HAS NO THORNS. For this reason it makes a fine lawn and specimen tree. Hardy, deep rooted long-lived. The fern like foliage is always pretty and graceful. The white fragrant flowers hang in racemes in June. Does not make a large tree but will grow to 30 to 40 feet. Easy to transplant and well worth having.

Weeping Willow. Graceful weeping tree. Vigorous and thrives on damp and dry soils alike. Makes a beautiful lawn specimen. Ideal near pools and watersides.

PLANTING SUGGESTIONS FOR BABY TREES

Why not plant a few rows of these little trees to grow on into larger trees and plant them in permanent positions later. Our transplanting directions tell you how to do it.

Flowering Trees. Dogwood, Red Bud, Fl. Crab Hoba, Catalpa, Caragana, Tamarix African.

Bird Havens. Plant Russian Mulberry. Fruit ripens all summer, is loved by birds and the trees furnish fine nesting places. Also Osage Orange, Hazelnut and Ginnali Maple.

Mass for Color in Border or in Woodland. Caragana, Dogwood, Redbud, Russian Olive, Catalpa, Birch, Ginnali Maple.

Street Trees. Green Ash, Chinese Elm, Silver Maple, Sugar Maple.

Lawn and Landscape. Specimen. Dogwood, Birch, Poplar, Willow, Locust, Russian Olive, Eu. Mt. Ash, Ginnali Maple, Tulip.

To Prevent Washing of Soil. Locust, Catalpa, Sycamore, Chinese Elm, Russian Mulberry, Osage Orange.

For Timber. Walnut, Sycamore, Sugar Maple, Hickory, Tulip.

For Hot Dry Locations. Chinese Elm, Caragana, Tamarix, Green Ash.

Transplanting directions furnished with each order.

NUT TREES

Walnut, Black. Fine for timber and large edible nuts. Large meats of fine quality. Bears quite young and almost every year. Transplants easily in small sizes and grows rapidly. Thrives in any soil; one of the most valuable timber trees in America.

Butternut. Small tree with round, spreading top. Interesting foliage and bears large, long nuts of very rich quality. Thrives in any soil and bears young and every year. Very hardy.

Hickory. Shell bark variety. Grows into fine timber and the rich nuts are thin shelled and fine quality.

Hazelnut. Tall bush. Thrives in dry locations. The fine nuts are born in clusters and are ripe in late September. Makes a fine shrub also.

Pecan. Hardy Northern Strain. These trees are grown from seed produced on a hardy tree in the north and are well worth trying. Nice size nut of good quality and a fast growing variety.

Climbing Vines

Lonicera Heckrottii—A new superlative. Very hardy and beautiful. Good dark blue-green foliage, with large clusters of flame-coral flowers that are lined with gold. Very unusual and striking. Grows rapidly and fine for trellis, fence or bank cover.

Fine Plants 60c each, 2 for \$1.00, 6 for \$2.75 prepaid.

Purple Wisteria—We offer fine grafted plants, grafts taken from fine flowering parents. Grafted plants are sure to bloom. Purple Wisteria is a fine desirable vine and we offer large two year old plants at.

60c each, 2 for \$1.00 or 6 for \$2.75 prepaid

Boston Ivy (Ampelopsis Vetchil)—The finest hardy climber for covering walls or brick chimney as it clings firmly to the smoothest surface without wire or nails for support. Small pretty shaped leaves of dark green through summer with autumn color of vivid crimson. Fine plants.

35c each, 3 for \$1.00, 6 for \$1.75 prepaid

Purple Clematis—Rich purple flowers in July. Hardy and very desirable. We offer fine potted plants that are sure to live.

85c each, 3 for \$2.25 prepaid

Butterfly Bush or Summer Lilacs

Butterfly Bush Will Bloom Profusely The First Summer These hardy plants offer finer cut flowers than probably any other and their long season of bloom (from July until frost) make them very desirable. The tops frequently die back to the ground in winter, but the following spring they start up and soon are blooming again. We offer many entire new colors. Butterfly bush like plenty of sunshine. Fertilize them with bone meal, Manure or high grade fertilizers. They will thrive in almost any kind of soil if you feed them well. We ship strong FIELD GROWN plants with good roots and tops trimmed properly for planting. They are sure to bloom the first summer.

choice 50c each, 3 for \$1.35, 6 for \$2.50, 12 for \$4.00 prepaid

Charming—New Pink. Beautiful bushy plant growing five feet tall. Very striking in the landscape and flowers from early July until frost. The individual flowers are quite large and the spikes open up full length. Beautiful pink and a lovely cut flower. Especially fine when used with delphinium.

Dubonnett—Beautiful Wine Red and named after the popular French Wine of that name Dubonnett. In sunshine and under lamp the color is dark red. The spikes are solid and well filled. Fine for cutting, very hardy and should be in every garden.

Hartwegii—Large bright lavender panicles on beautiful formed spikes. A lovely shade and combines with the other varieties to offer this pleasing contrasting shade. Hardy and free flowering.

Ille de France—Deep rich purple. This variety blooms with the other colors and gives a long season of bloom. Rich foliage and pleasing fragrance.

Magnifica—A very strong growing variety with large flower of a pleasing lilac shade. Its free flowering habit and pleasing color makes it worth while and desirable. Fine strong field grown plants of Butterfly bush, your choice 50c each, 3 for \$1.35, 6 for \$2.50, 12 for \$4.00 prepaid

The Sensational New Butterfly Bush ROYAL RED—

From July to frost this variety produces an abundance of rich Dazzling Red panicle flowers that attract instant attention. A new and distinct color and very beautiful in bouquets and very attractive in the flower border. The strong field grown plants we offer this year are easy to make grow and will bloom profusely the first summer.

75c each, 3 for \$2.00, 6 for \$3.75 prepaid

20c each, 3 for 55c, 6 for 95c, or 12 for \$1.85 Postpaid

DIANTHUS—OLD SPICE—Novelty 1942

(Patent No. 499)

Your choice Hybrid, possessing it seems, all the good qualities you can ask for in a plant.

First: It is as hardy as an oak.

Second: Habit of growth is neat cushion like and compact. Stems are about 12 inches tall.

Third: It flowers prolifically over a long period, 20 or more flowers on a single plant.

Fourth: Color of the beautifully moulded flowers is rich salmon-pink like that of the popular greenhouse Carnation Laddie.

Fifth: The Calyx does not split as is the case with the old-fashioned clove pinks. All the flowers are perfectly formed.

Sixth: The spicy carnation fragrance will delight you.

What more can you ask? We think it is one of the finest of garden plants.

Each .55c, three for \$1.50, 12 for \$5.00, Postpaid

GIANT HIBISCUS

Perfectly hardy. This unusually showy plant blooms first year from July to frost. Grows 4 feet tall and the immense flowers are 8 inches across. Gorgeous red shades. Also bright pink and pure white. Order the colors you prefer. This plant thrives in all soils and likes sun or partial shade.

3 year old plants 35c each, 3 for \$1.00, 12 for \$3.00 prepaid

HARDY LARGE-FLOWERED PENTSTEMONS

GARNET—This is the first of a new strain of hardy, large flowering Pentstemons. Heretofore, the only large-flowering Hybrid Pentstemons available were the Gloxinoides which are not hardy in the North. Pentstemon Garnet is of spreading habit and produces a succession of bloom from June until stopped by frost. The Gloxina-like flowers are a rich garnet color, and are gracefully placed on stems 12 to 18 inches tall. The plants have from six to a dozen spikes continually throughout its flowering season. The flowers are excellent for cutting and last a week or more in water.

FIREBIRD—The beauty came from Switzerland. The flowers are Foxglove-like in size on stems about 18 to 24 inches tall, and are a most beautiful ruby-crimson. The plant is easily grown, is free from insect pests, flowers freely, creates a lovely effect in the flower garden, and is a cut flower par excellence.

Prices on both varieties .40c each, 3 for \$1.00, 6 for \$1.80,
or 12 plants \$3.50, prepaid. Try some.
